Flagship RL
Quality Alfalfa With Reduced Lignin

Highlights
- Reduced lignin for extended harvest window
- Better yield and more persistent stand than other reduced lignin alfalfas
- High RFQ, NDFd, and TTNDFD forage scores
- Outstanding forage yield potential
- Solid disease resistance package
- Moderate resistance to Aphanomyces Root Rot (Race 2)

Product Details
Flagship RL was selected for herbage quality which delivers outstanding RFQ, NDFd and TTNDFD scores. With these high-quality attributes, Flagship RL alfalfa has comparable forage quality ratings similar to the non-GMO reduced lignin alfalfas. Along with outstanding forage quality, it delivers outstanding yield potential.
