

F2121N LLGT+

2.1 RM

LIBERTYLINK
GT27

HIGHLIGHTS:

- Direct replacement for F2109 LLGT+
- Widely adapted and moves east to west
- Very good IDC tolerance with above average white mold tolerance
- Excellent emergence and stress tolerance

SOIL TYPES

Highly Productive Soils	Excellent
Average Variable Soils	Excellent
Less Productive Soils	Excellent
No-Till/Cold Soils	Excellent
Heavy/Wet Soils	Average
Light/Sandy Soils	Very Good

DISEASE RESISTANCE

Phytophthora Gene	None
Phytophthora Tolerance	Very Good
Iron Chlorosis	Very Good
Brown Stem Rot	Average
White Mold	Good
Sudden Death Syndrome (SDS)	Good
Cyst Nematode	Resistant

PLANT CHARACTERISTICS

Flower	Purple
Pubescence	Light Tawny
Pod	Tan
Hilum	Black
Lodging	Very Good
Emergence	Excellent
Plant Height	Medium-Tall
Plant Type	Medium
Stress Tolerance	Excellent
Estimated Seed Size	NA
Protein	NA
Oil	NA
Row Widths	All
Yield for Maturity	Excellent

NOTES
