

# HVX RR

Harvxtra® RoundUp Ready® Alfalfa

## HIGHLIGHTS:

- Extends harvest window
- Flexible cutting schedule
- Unsurpassed weed control with excellent crop safety

### PRODUCT CHARACTERISTICS

<b>Key Feature</b>	<i>Extends Harvest Window</i>	<b>Fusarium Wilt</b>	<i>HR</i>	<b>Aphanomyces Root Rot (Race I)</b>	<i>HR</i>
<b>Fall Dormancy</b>	<i>4.0</i>	<b>Anthracnose</b>	<i>HR</i>	<b>Southern Leaf Blight</b>	<i>NA</i>
<b>Winter Survival</b>	<i>2.0</i>	<b>Phytophthora Root Rot</b>	<i>HR</i>	<b>Verticillium Wilt</b>	<i>HR</i>
<b>Bacterial Wilt</b>	<i>HR</i>				

### PRODUCT DETAILS

HVX RR Alfalfa gives growers the ability to better manage the yield-versus-quality tradeoff. It offers more flexibility in cutting schedule to achieve improved forage quality or greater yield potential, when compared to conventional alfalfa at the same stage of maturity. The HarvXtra® technology provides unprecedented flexibility by widening cutting windows, which gives growers the option of each cutting for: a) maintain their normal harvest schedules for higher-quality forage, or b) delay harvest for 7-10 days for increased yield potential, without sacrificing forage quality, compared with conventional alfalfa at the same stage of maturity. Averages 12-15% less lignin and 12-15% higher neutral detergent fiber digestibility (NDFd) and relative forage quality (RFQ) than conventional alfalfa harvested at the same stage of maturity. Stacked with the Roundup Ready® Technology for unsurpassed weed control with excellent crop safety.
